

2018 ZOLERA® FX FUNGICIDE YIELD GUARANTEE PROGRAM FOR CORN AND SOYBEANS

ZOLERA FX FUNGICIDE—THE HEAVY-DUTY COMBINATION FUNGICIDE FOR MAXIMUM PERFORMANCE IN CORN AND SOYBEANS

ZOLERA® FX Fungicide combines two powerful active ingredients at full rates for consistent performance that maximizes your yield in corn and soybeans. The combination delivers preventative and curative activity on a wide spectrum of key diseases including Frogeye leaf spot, White mold, and Rusts in soybeans. Yield response to ZOLERA FX when applied at VT in corn has shown outstanding yield and plant health benefits.

CORN (FIELD AND HYBRID SEED)

DISEASE CONTROL	APPLICATION RATE	APPLICATION TIMING AND INFORMATION
Anthracnose leaf blight Common rust Southern rust Gray leaf spot Northern corn leaf blight Northern corn leaf spot Southern corn leaf blight Eye spot	5 fl oz/A	VT* timing For optimum results, begin applications preventively. Use the higher specified rates when disease pressure is high. Apply by ground in a minimum of 10 GPA, by air in a minimum of 2 GPA, or through chemigation.

*Actual labeled growth stage is V6–R4; however, recommended during VT for best yield response. Do not use an adjuvant after the V8 stage and prior to the VT stage of corn. An adjuvant may be used at any other growth stage.

SOYBEANS

DISEASE CONTROL	APPLICATION RATE	APPLICATION TIMING AND INFORMATION
Asian soybean rust Alternaria leaf spot Anthracnose Brown spot Cercospora blight and purple seed stain Frogeye leaf spot Pod and stem blight Rhizoctonia aerial blight Rust White mold/Sclerotinia stem rot Powdery mildew	5 fl oz/A	R1 or earlier timing for White mold R1–R5 timing for other labeled diseases For optimum results, begin applications preventively. Under severe disease conditions, the higher specified rate should be used. Apply by ground in a minimum of 10 GPA, by air in a minimum of 2 GPA (5 GPA for White mold and Asian soybean rust), or through chemigation.

2018 YIELD GUARANTEE PROGRAM

If ZOLERA FX Fungicide is applied as required below and the value of your yield improvement is less than the cost of your ZOLERA FX Fungicide, Arysta LifeScience will replace the ZOLERA FX Fungicide you purchased.

THE 2018 ZOLERA FX FUNGICIDE YIELD GUARANTEE PROGRAM

We're so confident you'll experience a positive yield response in your corn and soybeans, we're willing to guarantee it. Here's how the **2018 ZOLERA FX Fungicide Yield Guarantee Program** works:

Rules and Conditions:

1. Apply ZOLERA FX Fungicide at the rate and timing as outlined in the tabled area.
2. Leave at least a 5-acre untreated check plot in the same field with the same variety or hybrid and other agronomic and irrigation practices used in both the treated and untreated area.
3. Treated area and untreated area must be harvested separately and yield comparisons made.
4. If the yield difference in your treated area did not cover the cost of the product, Arysta LifeScience will replace the product you purchased up to the difference in value of product and yield result, not to exceed value of original product purchase. Please contact your local retailer or Arysta LifeScience representative. See Arysta-na.com/map for your Arysta LifeScience representative.
5. The Arysta LifeScience representative must confirm your yield results to substantiate product replacement.
