

2018 Topguard® EQ Fungicide / Hero® Insecticide Soybean Yield Assurance Program

Program Description:

The **2018 Topguard® EQ Fungicide / Hero® Insecticide Soybean Yield Assurance Program** is designed to help growers realize the yield benefits of foliar disease and insect management in soybeans. Growers enrolling in this program are assured at least a three bushel per acre yield improvement over their untreated check if Topguard EQ fungicide and Hero Insecticide are applied according to the following recommendation.

Qualifying Product	Assurance Benefit	Minimum Application Rate	Program Payment Timing
Topguard EQ fungicide + Hero Insecticide	3 bu/A yield improvement	5 fl. oz./A Topguard EQ fungicide + 5 fl. oz./A Hero insecticide	30 days after claim submission

PROGRAM QUALIFICATIONS:

If a Topguard EQ fungicide / Hero Insecticide application is made according to the recommendations above and does **NOT** result in a minimum **three bushels per acre yield increase** over an untreated check*, FMC will return the difference between the bushel yield in treated acres and untreated check, **up to three bushels**, at the **October 2, 2018, Chicago Board of Trade** closing price per bushel not to exceed purchase price of Topguard EQ fungicide and Hero Insecticide combined application.

*An untreated strip/check area of the field representative of the field and one round wide ground application (180 ft.) or (500 ft. wide for aerial application) in which the application was made, must be harvested on the same day the entire field is harvested. The untreated check area cannot have any foliar fungicides or insecticides applied during the program period in order to maintain a useful comparison. All other agronomic factors must be the same in both the untreated check and treated areas, including but not limited to fertility programs, irrigation, soil type and soybean variety. The comparison treated area will be made comparing an equal measurement on either side of the untreated check. This check is to be a fair, representative, side-by-side comparison. If the treated area does not outyield, on an equivalent moisture adjusted basis, the untreated check area by three bushels per acre or greater, the participating grower or retailer must **notify their FMC representative within five days of harvest** to request reimbursement. Claims for reimbursement up to the full purchase price of Topguard EQ fungicide and Hero Insecticide (application and other cost not reimbursed) will require purchase receipts, electronic "as applied" raw application data and electronic raw yield data so we may verify through third-party GIS analysis prior to reimbursement. Payment will be issued to the grower. FMC will not reimburse for yield reductions related to climatic factors i.e., flooding, hail, wind, drought, fire, extenuating soil conditions i.e., differences in soil types, tillage, soil compaction, flooding etc., damage by pests other than soybean insects and/or foliar disease or any form of mechanical damage.

Program Requirements:

1. Leave a check strip in each field for at least one complete round and mark its location.
2. Use identical seed varieties or hybrids, fertility, tillage, seeding rate and weed control programs in all comparison check strips.
3. Variable-rate seeding technologies and crops grown for seed do not qualify for this program.
4. Products must be applied according to label use directions.
5. Growers must sign agreement to participate in assurance program by **July 15, 2018**.
6. Record and save product lot or batch numbers.
7. If there is a concern about return on investment, you must contact your FMC representative no later than November 15, 2018.

Hero Insecticide is a Restricted Use Pesticide

2018 Topguard® EQ Fungicide / Hero® Insecticide Soybean Yield Assurance Program

Program Period:	May 10, 2018 to November 15, 2018
Program Geography:	Nationwide excluding California
Program Submission Date:	November 15, 2018
Program Payment Date:	30 days after claim submission

Program Rules & Conditions:

1. FMC reserves the right to change any or all features of this program at any time.
2. Assurance benefit is for product costs only. Application and other related costs are excluded from assurance payments.
3. An authorized FMC representative must be notified of a claim prior to the established deadline and have a reasonable opportunity to inspect prior to any additional product applications. The authorized FMC representative must confirm inadequate product performance.
4. Proof of purchase is required. Only FMC branded products purchased from FMC authorized distributors or retailers and reported by Data Dimensions are eligible for payment under this program.
5. Only product purchased for resale to growers is eligible for payment under the terms of this program.
6. Incentive checks will not be issued for less than \$500. All payments are subject to final approval by FMC Corporation.
7. FMC reserves the right to audit all claims. Misreported sales of any type are a clear violation of this program and will be subject to audit and possible forfeiture of any and all program benefits.
8. To qualify, growers must submit copies of qualifying FMC brand product invoice(s) to:

FMC Corporation, Program Administration, P.O. Box 221978, Charlotte, NC 28222
9. Documents must be mailed no later than **November 15, 2018**, to qualify for program benefits.
10. FMC is in no way liable or responsible for any grower failure to pay the retailer.
